Transform your approach to print management with Xerox® Workplace Solutions.

Every business needs to print. But every business wants print to be cost effective, secure and flexible enough to unleash the full potential of your increasingly mobile workforce.

Xerox® Workplace Solutions boost productivity and reduce costs with a modular print management and mobility solution. Control and manage your printer fleet while enabling mobile productivity with simplified workflows, convenience and security—for any brand printer, anywhere.

AUTHENTICATION AND ACCESS CONTROL

Use any one of our flexible authentication methods to conveniently and securely release your print jobs or access your device. Have the peace of mind of knowing that only authorized users can safely access sensitive data or services that you define.

Print management authentication options are compatible with a wide range of industry-standard secure readers and cards. Choose card, cardless or phone/tablet-based authentication.

- Flexible reader and readerless mobile authentication options
- Card-Based User Identification: MFP users can log in at the device with their pre-existing identification card by presenting their card at a reader attached to the MFP
- Integration with Microsoft® Active Directory®
- PIN-only user authentication alternate login
- Confirmation number alternate login
- Two-Factor Identification: For customers who desire tighter security in a cloud setting, identification can be supplemented with a PIN or password entered at the MFP user interface

ACCOUNTING AND REPORTING

Business owners can closely monitor printing across the organization with our consolidated fleet reporting and accounting capability.

- At-a-glance dashboard provides rapid, real-time insights into print activity and status
- Job-based accounting for print/fax/copy/scan and monthly usage
- Supports our Xerox® Standard Accounting Feature[1]

EASY MOBILE PRINTING

Xerox® Workplace Solutions make mobile printing simple and seamless, even with complex network configurations. Users won't need IT support to get up and running—raising productivity for everyone.

Whether you submit your jobs to our single queue from your desktop PC or mobile device, you can review, select job settings, print or delete them from any networked printer.

- Provides native desktop application printing with Microsoft Windows® OS devices and Google® Chromebooks™, Mac® OS, Linux® and mobile app printing for iOS, Android™ and Windows Surface™ tablets[2]
- With a traditional pull/follow printing workflow, send jobs to a single queue for release and retrieve when ready
- Stay inside your network or use the cloud

However you work, there's a Workplace Solution for you. Xerox® Workplace Suite keeps everything within your network, while Xerox® Workplace Cloud gives you the flexibility to work across multiple networks and locations.

CONTENT SECURITY AND PRINT RULES WORKFLOWS

Unique workflows provide high levels of control and additional security measures.

Print rules help take back control of your printers to reduce print volume and reduce costs by incorporating print rules to restrict access to features and devices.

Our content security workflow safeguards against intellectual property loss by monitoring the documents being printed, copied or scanned across your entire fleet for specific text (e.g., 'Confidential' or 'Internal Use Only'). Content owners or administrators are notified when user-defined words or phrases are detected within jobs.
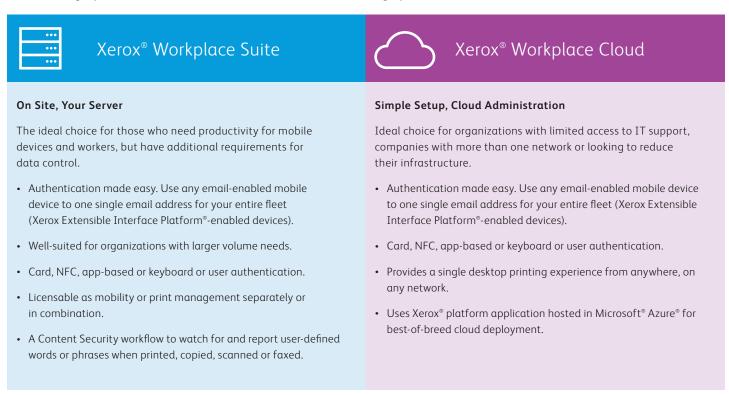

[1]. Requires Xerox® Workplace Suite with on-premises installation
[2]. Available in server queue mode only

Your choice. Your way.

Xerox® Workplace Solutions offer flexible license options to suit any size business with the ability to scale as you grow.

Two hosting options, each with its own features and licensing specifics.

Xerox® Workplace Suite	Xerox® Workplace Cloud
On Site, Your Server	**Simple Setup, Cloud Administration**
The ideal choice for those who need productivity for mobile devices and workers, but have additional requirements for data control.	Ideal choice for organizations with limited access to IT support, companies with more than one network or looking to reduce their infrastructure.
• Authentication made easy. Use any email-enabled mobile device to one single email address for your entire fleet (Xerox Extensible Interface Platform®-enabled devices).	• Authentication made easy. Use any email-enabled mobile device to one single email address for your entire fleet (Xerox Extensible Interface Platform®-enabled devices).
• Well-suited for organizations with larger volume needs.	• Card, NFC, app-based or keyboard or user authentication.
• Card, NFC, app-based or keyboard or user authentication.	• Provides a single desktop printing experience from anywhere, on any network.
• Licensable as mobility or print management separately or in combination.	• Uses Xerox® platform application hosted in Microsoft® Azure® for best-of-breed cloud deployment.
• A Content Security workflow to watch for and report user-defined words or phrases when printed, copied, scanned or faxed.	

Manage Xerox® Workplace Solutions yourself or have us take care of everything. Either way, you'll have total control and the freedom to focus on your core business.
