Xerox® Connect App for DocuSign
## Sign up for faster paper processes.

DocuSign

Xerox® Connect
for DocuSign

Print. Scan. Simplify.

Your paper processes can work smarter. With this app, you can easily scan to and print from your DocuSign account without the extra step of using a computer or mobile device. Saving crucial time. And keeping your business moving forward.

70-80% improvement in efficiency is achieved by replacing manual processes with electronic signature solutions.
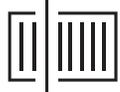

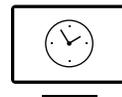

– Forbes

BEFORE

Fill out or sign document. → Scan the document. → Email the document to your computer. → Return to you computer. → Find and save the document to your desktop. → Put the document in the correct DocuSign envelope or template.

AFTER

Fill out or sign document. → Scan via MFP. → Send to correct DocuSign envelope or template.

Streamline your approach to DocuSign.

This app is an essential supplement to DocuSign. Print documents from DocuSign for distribution and archiving. Scan and save as a draft or send to recipients with redefined DocuSign templates. Or create new envelopes — complete with recipients and signature fields — right at your multifunction device.
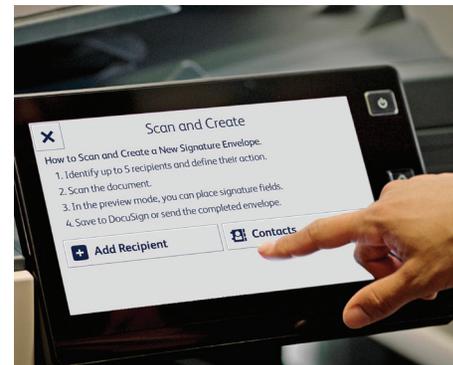

xerox™

Make paper move at the speed of digital with the Xerox® Connect App for DocuSign.

DocuSign

Xerox® Connect
for DocuSign

Get essential documents in front of the people who need them faster and with less hassle. This app brings the speed and convenience of the digital world to paper documents. So you can spend more time working on what matters.

Print.

Select a document from your DocuSign account and print. It's that easy.

Scan and digitize.

Scan a paper document into your DocuSign account and save as a draft or send to recipients using predefined templates.

Scan and create.

Specify recipients, scan, add tabs for signature field locations if desired and save as a draft or send to recipients.

Preview.

Double-check recipients, information and signature fields before sending with the simple preview feature.

Single Sign-On

Skip the step of logging in. Single sign-on lets approved users unlock a printer or app conveniently and securely using only their ID card or smartphone. This functionality is available whenever you're using a supported authentication solution.*
